How?

Become part of TEAM HCC by learning more and registering at <https://bit.ly/HCC-CCIC23>

What?

The Community College Innovation Challenge (CCIC) is led by the American Association of Community Colleges (AACC) in partnership with the National Science Foundation (NSF). It is a national competition where community college student teams, working with a supportive faculty or administrator mentor, use science, technology, engineering, and mathematics (STEM) to innovate solutions to real-world problems; earn full travel support to attend an Innovation Boot Camp in the Washington, D.C. metro area; and compete for **cash awards**.

The **Innovation Boot Camp** provides professional development, mentoring, and coaching designed to build strategic communication and entrepreneurial skills to help students advance their innovations in both the private and public sectors. Students participate in sessions on commercializing ideas, using technology for social applications, communicating with stakeholders, refining a pitch, and more. The Boot Camp culminates in a poster session and engagement opportunity with STEM leaders and Congressional stakeholders, and a pitch presentation in front of a panel of esteemed industry and entrepreneurial professionals to determine the first, second, and third place winning teams.

The national CCIC is designed to enable community college students to discover and demonstrate their capacity to use STEM to make a difference in the world and to translate that knowledge into action.

Who?

Diverse and interdisciplinary teams that include students in STEM, business, humanities, and other fields are encouraged. Teams of 2 to 4 community college students with an interest in STEM innovation, entrepreneurialism, and in making a difference; a faculty or administrator team mentor. Required participation in an Innovation Boot Camp for student finalists and their mentors held in Washington, D.C. metro area on June 12-15, 2023

Why?

To foster the development of crucial innovation, communication, and entrepreneurial skills to initiate real-world change; network with national student teams, STEM leaders, industry representatives, and entrepreneurs; and compete for cash awards for your **STEM innovation!**

When?

Applications are accepted from **January 17 – March 30, 2023**; HCC Intent to Participant registration is due February 28, 2023 by 5pm CST.
