

HEALTHCARE MANAGEMENT

ABOUT THE PROGRAM

Graduates of the Associate of Applied Science in Healthcare Management are prepared for entry-level roles supporting quality care and efficient healthcare operations. Students learn the culture of the healthcare environment along with fundamentals in marketing, economics and accounting. Coursework also covers project management, coding and insurance to help clinics, hospitals and medical offices run smoothly.

Graduates who earn a 2.5 GPA may apply to the online Bachelor of Applied Science in Healthcare Management at Houston City College.
